

American Jetset

OVER 1 MILLION STREAMS

20K+ FOLLOWERS

Buckle up for a wild ride with American Jetset, the electrifying band storming out of the East Coast on a mission to unite misfits worldwide! Their explosive fusion of sleaze rock shock pop is a beacon in the darkness of the post-Sunset Strip Era.

Drawing inspiration from glam metal legends like Mötley Crüe and Poison, American Jetset first broke onto the underground rock scene with their 2018 debut EP, "Live Love Die on Main." Momentum continued building with the release of "Saloon Rock Whiskey Pop" and "Cat's Got Your Tongue," helping establish the band as one of the rising names in modern RnR.

Renowned for their high-energy performances, American Jetset has built a global following while sharing stages with acts including Winger, Tom Keifer, Stephen Pearcy, Steven Adler, LA Guns, Living Colour, and Faster Pussycat. From appearances at M3 Rock Festival to performances at iconic venues like The Whisky A Go Go, the band continues to prove why they're one of the most relentless touring acts in the scene.

In March 2024, Jetset inked a deal and became part of the Golden Robot Records family before releasing their biggest record to date, "1987," marking the band's debut release with the label. In January 2026, the band released their cover of Jackson Browne's "Running on Empty," which remained on the Top 100 Rock Chart for 18 consecutive weeks and helped launch their biggest touring year yet.

The band kicked off their 2026 tour in March and will travel coast-to-coast four times this year. So turn up their single "Blackout Summer Nights" and get ready for takeoff.
